

## Actium Shaded Sand Vase

Sand-shaded ceramic vessel with desert-inspired gradients. Perfect showpiece for artificial botanicals. Pairs with beaded artwork and cut-out holders.

- Multi-seasonal display potential
- Neutral color scheme adapts to all styles
- Gradient effect adds visual depth

**Code:** 23780  
**Dimensions:** 30L x 30W x 46H

### Description

A visual testament to modern design sensibilities, this sand-toned vase presents an organic silhouette that merges contemporary minimalism with artisanal authenticity. The naturally graduated shading technique creates an illusion of depth and movement, reminiscent of windswept desert landscapes. Its substantial proportions make it an ideal centerpiece, while the neutral palette ensures seamless integration with diverse interior styles. The vessel's understated luxury pairs magnificently with both dried and artificial botanicals, creating opportunities for seasonal displays that reflect current design trends. For optimal styling, consider combining with the White Ceramic Star Cut-Out Square Tealight Holder or Tree Cut-Out Square Tealight Holder, which echo its clean lines and modern aesthetic. The natural textures complement beautifully with decorative elements like the wooden heart or star hanging decorations, offering endless possibilities for creating coordinated retail displays. For added visual interest, the piece works harmoniously with the Reef Coral Art or Atol Coral Art in beaded frames, forming a cohesive coastal-inspired collection. The vase's versatile design makes it equally suited to minimalist settings or as part of more elaborate decorative arrangements, providing retailers with multiple merchandising options to appeal to diverse customer preferences. Its year-round relevance and ability to adapt to changing seasonal displays make it a smart choice for stock rotation and visual merchandising strategies.
