Multi-surface display potential

Shadow-casting geometric design

All-season merchandising item

Code: 24151
Dimensions: 12L x 13W x 3H

Description

This ceramic creation redefines decorative illumination with its celestial-inspired design. The star-shaped holder, fashioned from pristine ceramic, presents a mesmerising interplay of light and shadow when housing a flickering candle. Its three-dimensional structure creates an atmospheric display as candlelight dances through the geometric cutouts, casting enchanting patterns across surrounding surfaces. The matte ceramic finish provides a contemporary aesthetic that seamlessly integrates with both minimalist and lavish décor schemes. Perfect for creating focal points throughout retail displays, this piece appeals to design-conscious consumers seeking statement accessories for their homes. For maximum visual impact, we recommend pairing with complementary metallic tea light holders, crystal votives, or pendant lanterns from our collection. The neutral palette allows for effortless coordination with seasonal decorative elements, making it an essential year-round stock item. Its compact proportions make it ideal for window displays, shelving arrangements, or tabletop vignettes, offering retailers multiple merchandising possibilities. The practical yet artistic design resonates with customers seeking affordable luxury items that serve both functional and decorative purposes.
