Nordic-inspired winter finish

Adaptable display potential

Code: 23450

Dimensions: 6L x 6W x 10H

Description

Drawing inspiration from winter's raw charm, this white-washed pine cone bauble merges organic textures with modern design sensibilities. The carefully treated surface reveals subtle gradients and an ethereal patina that catches light from every angle, creating a mesmerizing display on any holiday tree. Each bauble exhibits distinctive characteristics of genuine pine cones, preserved in a lasting ornamental form. The white-wash finish adds a contemporary twist to traditional botanical elements, making it an essential addition to curated seasonal collections. This piece harmonizes beautifully with the Natural Nutcracker Decoration and Burnished Glass Honeycomb Bauble, while the coordinating ceramic star decorations provide perfect accent pieces. For a cohesive display, consider pairing with other items from the White Wash Collection, particularly the small wooden hanging star decoration. The understated palette and natural motifs make this bauble equally suited to minimalist holiday arrangements or lavish seasonal displays, offering retailers flexible merchandising opportunities that appeal to diverse customer preferences.
