

## Athena Stone Large Hurricane Lantern

Mediterranean-inspired stone lantern with glass protection for dramatic illumination. Pairs perfectly with Athena collection pieces. Essential for creating balanced home displays.

- Weather-resistant stone-effect finish
- Substantial size for impactful display
- Glass enclosure for safe candlelight

**Code:** 23649

**Dimensions:** 18L x 18W x 21H

### Description

This magnificent hurricane lantern represents the pinnacle of refined home accents, with its graceful stone-inspired finish and substantial proportions that create an impactful visual statement. The artful design merges traditional Mediterranean influences with contemporary appeal, offering a vessel that appears to have been carved from ancient stone blocks. Its weathered patina and robust construction suggest both durability and artistic merit, while the glass enclosure provides protection for candlelight that dances within. When styled alongside the coordinating Athena Stone collection, including the complementary smaller hurricane lantern and amphora pot, it creates a cohesive decorative narrative. For added depth and visual interest, pair with the Darcy Antique White Vase and enhance the arrangement with the Large Cineraria Eucalyptus Spray. The neutral palette allows for seamless integration into various interior schemes, making it an excellent choice for retailers seeking adaptable inventory. The substantial scale ensures it functions as an anchor piece in any display, whether positioned as a standalone statement or grouped within a carefully curated collection. This lantern appeals to consumers who value pieces that blend sculptural presence with practical functionality, promising strong sell-through potential for stockists.
