

Black Wood XL Window Mirror

Architectural window design with precise geometric panes. Dark frame creates dramatic depth. Multiple reflective surfaces expand space magically.

- Professional-grade construction
- Multi-pane design maximizes reflection
- Retail-ready presentation appeal

Code: 23606
Dimensions: 4L x 112W x 170H

Description

Introducing a statement piece that merges architectural grandeur with modern design sensibilities. This oversized window mirror features a deep ebony frame that outlines each pane with mathematical precision, creating a dramatic interplay of light and reflection. The dark wooden framework adds depth and character while dividing the mirror surface into a grid that recalls classic Georgian window designs. Perfect for expanding visual space in both residential and commercial settings, this mirror pairs beautifully with contemporary lighting options like the Inicia Stem Table Lamp or Leptis Magna Table Lamp for a cohesive aesthetic. For added ambience, consider matching with the Luxe Collection Natural Glow LED candles, which create enchanting reflections in the mirror's multiple panels. The architectural styling and substantial scale make this piece equally impactful in retail environments, hospitality spaces, or upscale homes.
