### Description

Redefine outdoor living with this meticulously crafted garden set, where modern design meets unmatched durability. The intricate 5mm half-round HDPE wicker weave creates a realistic appearance while offering superior weather resistance. The lightweight yet robust powder-coated aluminum frame ensures longevity against rust and corrosion, while eco-conscious acacia wood feet add both stability and environmental responsibility. The grade 5 Olefin fabric cushions maintain their vibrancy while resisting UV damage and moisture, drying quickly for practical everyday use. This collection demonstrates thoughtful engineering in every aspect, from its weatherproof construction to its easy-maintenance design, requiring only mild soap and water for the wicker surfaces. For retailers seeking to offer complete outdoor solutions, this set pairs beautifully with our selection of outdoor lighting options, including the Pella Table Lamp for ambient evening illumination, and our collection of weather-resistant decorative mirrors such as the Chico Black Large Wire Mirror or Rust Effect Large Arched Window Mirror, which can create an illusion of expanded space in outdoor areas. The neutral palette and contemporary design language make this set a sought-after addition to any outdoor retail collection, appealing to customers who value both aesthetics and functionality in their exterior living spaces.
