

Carved Wood Effect Grey Small Snowy Tree

Bringing subtle and tasteful Christmas vibes to a space is simple with this slim carved wood effect tree. Its slim footprint makes it an ideal choice for window and shelf display.

Perfect for window and shelf display

Handcrafted

Realistic carved effect

Code: 21817

Dimensions: 9L x 21W x 47H

Description

Add subtle winter charm to your retail space with this intricately detailed wood effect tree, showcasing delicate snowy accents and a thoughtfully considered slim profile that makes it perfect for diverse display options. The grey tones and carved texture create an artisanal appearance that resonates with contemporary décor preferences while maintaining seasonal appeal. This piece works exceptionally well when paired with complementary accessories from our collection, including the Antique White Wooden Sparkle Star for added luminescence, the Smoked Midnight Glass Candle Holder for atmospheric lighting, and the Silver Standing Stag Ornament for a cohesive winter theme. The graduated sizing options enable creative merchandising possibilities, allowing for dynamic multi-level arrangements that catch the customer's eye. The understated neutral palette ensures this decorative piece transitions seamlessly from early winter displays through to post-holiday seasonal arrangements, maximizing its retail value and appeal. The authentic wood-carved appearance and quality construction make this an investment piece that customers will treasure for multiple seasons, while its compact dimensions ensure it appeals to customers with various space considerations.
