

Carved Wood Effect Grey Snowy Tree

Bringing subtle and tasteful Christmas vibes to a space is simple with this slim carved wood effect tree. Its slim footprint makes it an ideal choice for window and shelf display.

Perfect for window and shelf display

Handcrafted

Realistic carved effect

Code: 21818
Dimensions: 7L x 16W x 35H

Description

This delightfully understated winter décor piece boasts a carefully sculpted wood-effect finish in a calming grey tone, adorned with a dusting of snow that catches the light beautifully. The slender profile makes it an intelligent choice for modern retail spaces where display area is at a premium, while its neutral palette harmonises seamlessly with contemporary and traditional settings alike. Perfect for creating layered seasonal displays, it pairs wonderfully with the coordinating smaller size tree for visual interest, while the Antique White Wooden Sparkle Star makes for a radiant companion piece. For an enchanting arrangement, consider clustering with the Smoked Midnight Glass Candle Holder to add depth and ambient lighting. The realistic carved detailing and frosted finish invite closer inspection, making it an irresistible addition to any carefully curated seasonal collection. The versatility of this piece extends beyond the holiday season, offering year-round appeal as a decorative accent. When merchandised alongside the Silver Standing Stag Ornament and complemented by the warm glow of glass decorative trees from The Noel Collection, it creates an atmospheric display that will entice customers to explore the full range. The thoughtful design ensures it works equally well as a standalone piece or as part of a broader seasonal narrative, providing retailers with multiple merchandising opportunities.
