### Description

Distinguished by its artful combination of two-tone fir needles and authentic-looking pinecones, this luxurious artificial tree radiates seasonal refinement from its sturdy stone base to its uppermost branch. The meticulous attention to botanical detail creates an illusion of freshly-cut fir, while requiring none of the maintenance. At a considered height of 120cm, it presents the perfect scale for enhancing entryways, kitchen spaces, or as a secondary tree to complement larger seasonal displays. The neutral stone container provides a refined foundation that harmonizes with both modern and traditional décor schemes. For an outstanding seasonal display, pair this tree with the Large Silver Pinecone Finial for vertical interest, add warmth with the Luxe Collection Natural Glow LED Candles, and incorporate the Large Antique White Wooden Sparkle Star for dimensional appeal. The addition of the Silver Smoked Midnight Glass Candle Holder will create depth and ambience, while the Large Hydris Glass Vase can be positioned nearby with seasonal stems for a coordinated arrangement. This artificial tree offers year-round merchantability, allowing retailers to maximize their investment through extended seasonal displays and early holiday merchandising opportunities.
