- Bleached finish with industrial accents
- Durable hardwood construction

Code: 22972
Dimensions: 200L x 100W x 78H

Description

Drawing inspiration from French design sensibilities, this distinguished dining table showcases a meticulous blend of traditional craftsmanship and modern aesthetics. The washed, bleached hardwood finish creates an inviting atmosphere while the black ironwork handles add industrial flair to its unique silhouette. Each table represents the pinnacle of artisanal skill, featuring a distinctive shape exclusive to Hill Interiors. To create a cohesive aesthetic in your retail space, we recommend pairing this centerpiece with the Large Rustic White Clock featuring an ornate beaded frame, which echoes the table's light tones. The dramatic contrast can be further enhanced by incorporating the Hammered Silver Astral Vase collection, whose textured surfaces catch light beautifully. For a finishing touch that brings warmth and texture, consider displaying the Autumn Ruby Hydrangea arrangement, whose rich colors provide an enchanting contrast against the table's serene finish. These carefully selected accessories will help your customers envision a complete dining space that speaks of refinement and attention to detail.
