- Maintenance-free botanical realism
- 80cm stem length for dramatic arrangements
- Multi-season merchandising potential

Code: 22741

Dimensions: 0L x 0W x 80H

Description

This delightful Cream Aster Spider Chrysanthemum stem brings the charm of a sunlit garden indoors with its intricately layered petals and realistic appearance. Each bloom showcases delicate cream-colored petals that radiate outward in a mesmerizing spider-like formation, creating a sense of movement and depth. Perfect for high-end retail displays and bespoke floral arrangements, this artificial stem maintains its fresh appearance year-round without maintenance. For an inspired botanical collection, pair with the White Short Chrysanthemum for textural contrast, add depth with the Cineraria Eucalyptus Spray, and incorporate the Viburnum Berry stem for a pop of rich color. The neutral cream tone allows for seamless integration into both modern and traditional settings, while the quality construction ensures lasting appeal for your customers. This distinctive stem offers retailers a reliable option for creating show-stopping seasonal displays that attract discerning clients seeking botanical artistry.
