- Natural, dried flowers
- Layers additional texture into arrangements
- From our popular 'Recipe Collection'

Code: 21692
Dimensions: OL x OW x 60H

Description

Experience the ethereal charm of these ivory-hued *Lagurus ovatus* inflorescences, meticulously arranged to create an enchanting botanical display. Each stem reaches skyward with delicate spikelets wrapped in downy awns, producing a cloud-like formation that appears to float in space. This collection of 40 stems offers retailers an exceptional dried floral option that resonates with contemporary interior trends while maintaining lasting appeal. The soothing palette and gentle textures make it an ideal choice for minimalist spaces and rustic environments alike. For maximum visual impact, we recommend pairing with our Darcy vases, complementing white *Gypsophila* sprays, and pristine *Cosmos* stems. The arrangement works beautifully alongside our Lambs Ear foliage for added depth, while white willow sprays provide vertical interest. This low-maintenance botanical treasure provides your customers with an enduring display that maintains its beauty indefinitely, making it an excellent investment for both retail spaces and consumer homes. The versatility of this bunch allows for creative styling options - whether displayed as a dramatic standalone piece or incorporated into larger mixed arrangements, it consistently delivers visual intrigue and organic beauty.
