Description

Like a celestial burst frozen in precious metal, this sunburst mirror radiates vintage glamour with its intricate array of dimensional rays surrounding a beveled center glass. The antique silver finish catches and reflects light with subtle variations, creating an enchanting play of shadows and brilliance across your space. Perfect for luxury boutique hotels and high-end residential projects, this statement piece pairs beautifully with our ceramic lattice hurricane lanterns, white orchid arrangements in stone pots, and decorative metallic accessories. For maximum visual impact, consider clustering with our decorative hanging gold mirror or complementing with our Cyrene and Pella table lamps to amplify the metallic accents and create layers of ambient lighting.
