

Frosted Pine Tall Stem With Pinecones

Crystalline-frosted pine stem radiates winter magic. Natural pinecones add authentic charm. Perfect centrepiece for seasonal displays.

- Cold-weather ready botanical display
- Pinecone accents for genuine appeal
- Zero maintenance required

Code: 22746

Dimensions: 27L x 27W x 77H

Description

Winter's frosty charm materialises in this magnificent pine stem arrangement, where crystalline-dusted needles create an ethereal display of seasonal splendour. Each stem showcases a thoughtful arrangement of authentic-looking pine fronds, delicately frosted to capture the essence of a crisp winter morning. The strategic placement of natural pinecones adds depth and rustic appeal, making it an irresistible choice for retailers seeking to create enchanting seasonal displays. This botanical wonder seamlessly integrates with our collection of coordinating pieces, particularly the Frosted Pine Garland and complementary Frosted Pine and Eucalyptus arrangements. For an enhanced winter tableau, consider pairing with our LED Winter Garland featuring Eucalyptus and Lamb's Ear, or the Large Winter Sprig adorned with wax flowers. The addition of our Festive Pearl Decorative Spray and Snowy Branch creates layered depth, while the Antique White Wooden Sparkle Star offers a perfect finishing accent. This arrangement presents boundless opportunities for creative merchandising, allowing retailers to craft spellbinding seasonal displays that will enthral customers throughout the winter season. The quality construction ensures longevity, making it an excellent investment for trade buyers looking to maintain fresh-looking displays without the maintenance concerns of live foliage.
