Description

Introducing a mesmerizing artificial stem that brings the untamed beauty of nature indoors. This Green Berry Willow Stem features delicate berries nestled among gracefully arching branches, creating depth and movement in any arrangement. Its substantial height makes it perfect as a standalone statement or as a dramatic backdrop in mixed displays. For trade customers, this piece offers exceptional value with its realistic appearance and durability. When styling, pair with the Tiber Matt White Ceramic Vase for a minimalist look that lets the stem's silhouette shine, or combine with the Darcy Stone Vase for organic texture. Add dimension by incorporating White Gypsophila Sprays and Blackened Grass Stems. The deep green tones complement both the Chocolate and Black Chrysanthemums, while the Green Craspedia Stem adds textural contrast. These thoughtful combinations create eye-catching displays that will appeal to design-conscious consumers seeking botanical artistry for their spaces.
