Code: 24134

Dimensions: 83L x 83W x 90H

Description

Welcome the magic of winter into your commercial space with our pre-lit forest fir, a masterfully designed artificial tree that radiates warmth and festive charm. This lifelike creation boasts dense, richly textured branches that mirror the authentic appearance of natural fir, creating an enchanting focal point for any seasonal display. The pre-installed 300 LED lights weave through the branches, producing a warm and inviting glow that eliminates the need for additional lighting arrangements. Set securely in its accompanying pot, this tree offers remarkable stability and presents a complete, ready-to-display solution for retailers. The carefully arranged branches allow for effortless decorating, making it an ideal canvas for baubles, ribbons, and ornaments. For maximum visual impact, we recommend pairing this tree with our collection of mercury glass ornaments, crystalline icicle drops, and metallic garlands. The addition of our battery-operated woodland creature ornaments and frosted pine cone collections will create an immersive winter wonderland theme that appeals to customers seeking a cohesive holiday décor solution. The sturdy pot base can be enhanced with our selection of faux fur tree skirts or woven willow tree collars, providing additional merchandising opportunities for retailers.
