- Dense needle coverage maintains shape
- Multi-positional branches for varied displays

**Code:** 24131

**Dimensions:** 12L x 12W x 180H

### Description

Enshroud your space in woodland enchantment with this magnificent pre-lit fir garland that redefines festive décor. The verdant branches, meticulously arranged to mimic untamed forest growth, cascade gracefully along their impressive length, while 200 warm LED lights nestle within the dense foliage to create an ethereal glow that dances through the needles. Each branch appears to have grown naturally, creating depths and layers that catch both light and shadow throughout the day and night. The garland's substantial profile makes it ideal for draping along mantelpieces, winding up staircases, or adorning doorways, offering your customers multiple styling possibilities. The cool green hue of the artificial needles maintains its fresh appearance throughout the season, requiring no maintenance while delivering consistent beauty. For a cohesive seasonal display, consider pairing with our range of matching pine cone decorations, metallic baubles, or woodland-themed ornaments. Berry clusters and frosted leaf picks complement the natural aesthetic, while copper or gold wire string lights can add extra luminescence. Crystal icicle drops and snow-dusted decorative twigs enhance the winter woodland theme, creating endless merchandising opportunities for retailers. The built-in lighting system eliminates the need for additional illumination, making this garland an appealing ready-to-display solution for both traditional and contemporary retail environments.
