Description

From our signature Recipe Collection comes a refreshing artificial stem that brings the essence of springtime indoors. This lifelike green tulip features carefully detailed petals that appear to be caught in a graceful unfurling motion. The natural-looking stem complements arrangements perfectly, introducing varied height and texture while maintaining visual interest. For an inspired botanical display, pair with our white gypsophila spray for airy contrast, add lamb's ear spray for silvery texture, or combine with white and pink ranunculus for a garden-fresh look. The eucalyptus spray makes an excellent backdrop, while our selection of wildflower sprays introduces delightful variety. This green tulip works exceptionally well in seasonal displays and wedding bouquets, offering florists and retailers a reliable option that maintains its fresh appearance year-round.
