- Multi-toned needles reflect light
- Adapts to various display locations
- Coordinates with all metallic finishes

**Code:** 24130  
**Dimensions:** 12L x 12W x 180H

### Description

At the heart of festive décor lies this magnificent woodland fir garland, perfectly constructed to replicate the lush density and natural flow of authentic forest foliage. Each branch demonstrates remarkable attention to detail, with multi-toned green needles creating depth and realism that catches and reflects light beautifully throughout its generous length. The garland's adaptable form allows for creative styling across mantels, staircases, doorways and window frames, making it an essential choice for retailers seeking to offer high-quality seasonal décor. Its dense arrangement of needles provides excellent coverage and a full, abundant appearance that maintains its appeal from every viewing angle. The garland pairs wonderfully with our selection of pinecone picks, berry sprays, and metallic decorative baubles, allowing customers to customise their display. Consider merchandising alongside our range of battery-operated micro LED light strings, metallic ribbon collections, and coordinating Christmas picks to create enticing retail displays that showcase the garland's potential. The deep green hues work seamlessly with both traditional red and gold accessories as well as contemporary silver and white colour schemes, offering retailers flexibility in seasonal merchandising strategies.
