**Code:** 23786  
**Dimensions:** 55L x 55W x 46H

### Description

This collection of sand-toned planters showcases a refined gradient effect that transitions seamlessly from light to dark, creating a mesmerizing visual journey across each vessel's surface. The set of five planters offers an array of sizing options, making it perfect for creating dynamic plant displays that add depth and dimension to any retail space. The subtle earthen palette harmonizes with both modern and traditional décor schemes, while the clean geometric silhouettes provide a fresh take on classical vessel forms. When merchandising this collection, consider pairing it with metallic plant misters, woven plant hangers, or decorative watering cans in similar neutral tones to create an appealing lifestyle display. The planters' textural finish catches and reflects light differently throughout the day, adding an ever-changing element to their presentation. For maximum visual impact in your store, we recommend grouping these with our coordinating Ordo series in matching shaded sand finishes, as well as incorporating brass or copper plant markers and stone-effect pot feet. The versatility of this collection allows your customers to mix and match sizes and create personalized arrangements that suit their specific spaces, making it an excellent addition to any home décor inventory. Perfect for both indoor and outdoor settings, these planters represent the ideal balance of function and visual interest that today's design-conscious consumers seek.

Please Note: The flowers and plants used in the product photography are used for illustrational purposes only and are not included with the planter.
