

Ivy Pick

Realistic ivy pick with true-to-life leaf details. Pairs perfectly with roses and seasonal berries. Ideal for both simple and complex arrangements.

Chosen for its realism
Handcrafted

From our popular 'Recipe Collection'

Code: 20510

Dimensions: 15L x 30W x 85H

Description

From our distinguished Recipe Collection comes a meticulously detailed artificial ivy pick that brings the charm of winding tendrils into any floral arrangement. The lifelike leaves showcase varied shades of green with subtle veining that mimics authentic ivy foliage. This botanical accent piece demonstrates our commitment to authenticity, evident in every detailed leaf structure and natural-looking stem. Perfect for enhancing both residential and commercial spaces, this ivy pick adds depth and movement to arrangements. For maximum visual impact, pair with our Wild Meadow Roses in green or white, Viburnum Berry sprays, or classic Asparagus Fern bunches. The addition of our Eucalyptus Nicholii sprays creates an organic, layered look, while clustering with White Gypsophila adds delicate contrast. Interior decorators consistently praise its ability to blend seamlessly into custom arrangements, making it an essential stock item for florists and retailers seeking to meet the growing demand for long-lasting, maintenance-free greenery. Our ivy pick stands apart through its thoughtful design and ability to maintain its fresh appearance indefinitely, providing excellent value for trade customers and their clientele.
