Adaptable display options for ceiling and tabletop

Eco-conscious material choice

Multi-sensory appeal with texture and shadows

Code: 24164

Dimensions: 9L x 9W x 9H

### Description

Rustic charm meets contemporary design in this spherical jute bauble, offering a perfect blend of organic texture and modern aesthetics. The natural fibres create an intricate woven pattern that catches light and casts subtle shadows, making it an eye-catching decorative piece for any retail space. The neutral tones of the jute material ensure universal appeal, while its lightweight construction allows for versatile display options. This sustainable accent piece resonates with the growing consumer demand for eco-friendly décor options. The bauble's distinctive tactile quality and dimensional appeal make it an excellent conversation starter and display focal point. For maximum visual impact, we recommend pairing with complementary natural material accessories such as woven baskets, rope-wrapped vases, or macramé wall hangings. The piece works particularly well when grouped in varying heights with our selection of pendant lights, creating dynamic ceiling installations that appeal to design-conscious customers. Its adaptable style suits both minimalist and layered décor schemes, making it a reliable stock choice for retailers catering to diverse customer preferences.
