- On-trend black metal work
- Contemporary styling

Code: 22714

Dimensions: 40L x 100W x 200H

Description

Industrial design meets artistic expression in this uniquely arranged seven-shelf display unit. The asymmetrical configuration creates a dynamic visual rhythm through its varying shelf depths and heights, while the sleek black metalwork weaves an intricate lattice pattern throughout the structure. Each shelf presents a distinct stage for merchandising, allowing creative freedom in displaying collections of decorative items. The industrial-inspired framework offers remarkable adaptability - position it against a wall for a dramatic backdrop or utilize it as an architectural room partition. For maximum visual impact, pair with the Chico Black Large Wire Mirror to amplify the metal aesthetic, or add the Large Ceramic Adele Shell Bowl and Large White Orchid in Antique Stone Pot for a blend of organic and industrial elements. The contrasting textures of ceramic, living botanicals, and metalwork create a layered, multi-dimensional display that will resonate with design-conscious customers. When arranged in pairs, these units create a mirrored effect that doubles their architectural presence, establishing a powerful focal point in any retail environment.
