

Large Black Outline Tree And Star Candle Holder

This dramatic black metal candle holder creates enchanting light patterns through its tree and star silhouette. Perfect as a statement centrepiece that transitions between seasons. An architectural piece that pairs with metallic accessories.

Weather-resistant black metal construction

Creates shadow patterns through outline design

Multi-seasonal display potential

Code: 24000

Dimensions: 34L x 34W x 49H

Description

Cast in matte black metal, this sculptural candle holder merges minimalist design with enchanting winter motifs. The silhouette depicts a graceful tree outline adorned with a celestial star crowning its peak, creating mesmerising shadow play when illuminated. The geometric construction and clean lines offer a contemporary interpretation of traditional seasonal décor, while the substantial proportions make it an ideal centrepiece for retail display. The holder's innovative outline design allows candlelight to dance through the negative space, casting intricate patterns across surrounding surfaces. This piece pairs beautifully with metallic accessories like brass or copper tea light holders, geometric wire ornaments, and contemporary metal wall art. The stark black finish provides striking contrast against mercury glass votives, metallic ribbons, and crystal ornaments. For maximum visual impact, consider grouping with gradient metallic pillar candles, abstract metal wreaths, and sculptural wire accessories in mixed metallic finishes. The architectural quality of this piece allows it to transition seamlessly between seasons, making it a valuable addition to any carefully curated product selection.

Specification

Length:	34cm	Barcode:	5050140400081
Height:	49cm	Colour:	Black
Width:	34cm	Material:	Metal
