

Large Chopping Board with live Edge

Bringing a natural, earthy charm to kitchens, this uniquely shaped board's Live Edge brings individuality to a space.

- Beautiful Acacia wood, completely individual
- Handcrafted
- Adds an earthy minimalism

Code: 22089

Dimensions: 40L x 70W x 6H

Description

Crafted from beautiful Acacia wood, this substantial chopping board showcases the raw beauty of organic design through its distinctive live edge detailing. Each piece exhibits unique grain patterns and natural variations, making it an exclusive addition to any culinary space. The substantial thickness and generous proportions make it an impressive centerpiece for kitchen displays or serving arrangements. For a curated aesthetic, pair this distinctive board with the Natural Glow Stone LED Candles collection, creating an atmospheric display that merges rustic warmth with contemporary appeal. The addition of metallic accents through the Silver Nickel collection of decorative shoe horns can introduce a refined contrast to the organic wood tones, resulting in a thoughtfully layered presentation that will appeal to design-conscious customers seeking authenticity in their home accessories.
