- Coordinates with woodland-themed accessories

Code: 24126

Dimensions: 60L x 60W x 180H

Description

Create a magical woodland atmosphere with this magnificent pre-lit Christmas tree, designed to be the centrepiece of any festive display. Standing at an impressive height, this verdant creation mimics the lush density of natural forest pines with its realistic needles and thoughtfully arranged branches. The 350 LED lights are expertly woven throughout the foliage, creating a warm and enchanting glow that dances across the branches, casting subtle shadows that add depth and dimension to your seasonal décor. The woodland theme offers endless styling possibilities - pair with rustic pinecone garlands, woodland animal ornaments, or frosted berry picks to enhance the forest aesthetic. For a cohesive look, consider matching with our collection of battery-operated woodland lanterns, forest-themed tree skirts, and antiqued mercury glass decorations. The pre-strung lights eliminate setup hassle while ensuring professional-looking illumination every time. The branches are engineered for optimal ornament placement, allowing for seamless arrangement of decorations. This tree presents an outstanding opportunity for retailers to offer customers a complete Christmas solution that combines convenience with unmatched quality. The dense branch structure provides ample space for showcasing merchandise, making it an ideal choice for both home and commercial environments. When paired with our coordinating range of forest-themed accessories, including illuminated woodland creatures, natural bark-textured baubles, and moss-effect tree toppers, this tree becomes the foundation for countless merchandising possibilities.
