Space-efficient footprint

Code: 23086

Dimensions: 23L x 23W x 80H

Description

Contemporary design meets functional artistry in this matt black bullet planter, showcasing a sleek silhouette that defines modern interior aesthetics. The dramatic black finish creates a perfect canvas for displaying artificial greenery arrangements, while the innovative bullet-shaped vessel sits atop a coordinating black frame, resulting in a cohesive visual statement. This distinctive piece merges industrial influences with refined design sensibilities, making it an essential addition to design-forward retail collections. For maximum visual impact, pair this statement planter with complementary accessories such as the Decorative Black Hanging Mirror, which echoes its modern aesthetic, or create a layered lighting ambiance with the Natural Glow Marble Effect LED Candles. The planter's architectural form works exceptionally well alongside the Seville Collection's minimalist vessels and urns, particularly when styled with metallic accents like the Gold Pinecone Finials to add dimensional interest. Perfect for both residential and commercial spaces, this planter offers retailers a high-demand product that appeals to clients seeking statement pieces that balance form and function.
