Matt black metal construction with geometric stand
Adaptable for artificial or live plants

Multi-purpose retail display vessel

Code: 23094

Dimensions: 25L x 25W x 84H

Description

Modern aesthetics reach new heights with this sleek cylindrical planter, showcasing a refined matt black finish that exemplifies contemporary design sensibilities. The minimalist silhouette stands atop a geometric black frame, creating an architectural statement piece that adds depth and visual interest to any space. The understated surface treatment allows for seamless integration with both minimalist and industrial-inspired décors, while the proportions offer an ideal showcase for dramatic botanical displays. For maximum visual impact, pair this distinctive vessel with our Matt Black Hammered Vase with Lid or coordinate with the Tiber Stone Ceramic Vase for textural contrast. The addition of our White Hydrangea Bouquet or Cream Pampas Grass creates dramatic height and movement, while clustering with the Medium Stone Candle Holder produces an engaging multi-level display. The vessel's substantial presence makes it particularly suited for retail environments where it can anchor merchandise displays or create impactful window presentations. For added flexibility, the planter accommodates both artificial and live plants when used with an internal waterproof container, offering versatility that appeals to a broad customer base.
