- Pre-installed 350 LED system
- Authentic snow-covered branches
- Requires no additional lighting

Code: 24124

Dimensions: 60L x 60W x 180H

Description

Create a magical winter wonderland atmosphere with this enchanting pre-lit Christmas tree that captures the serene beauty of a snow-covered forest. Each branch features a delicate dusting of artificial snow that catches and reflects the warm glow of 350 integrated LED lights, creating an ethereal ambience throughout your space. The carefully arranged branches provide depth and dimension, while the snow-touched needles appear remarkably authentic, replicating the quiet beauty of freshly fallen snow. This showstopping centrepiece will appeal to customers seeking both traditional charm and contemporary convenience. The pre-installed lights eliminate the need for separate light strands, saving time and ensuring perfect illumination distribution. For retailers, this tree represents an excellent opportunity to boost seasonal sales through complementary merchandise. Consider pairing with frosted pine cone garlands, silver and crystal baubles, or ice-blue ribbon for a coordinated winter theme. Glass icicle ornaments and mercury glass decorations enhance the frosty aesthetic, while battery-operated window candles and tabletop LED arrangements extend the magical glow throughout the space. The neutral snow-white palette allows endless styling possibilities, making it an ideal choice for both residential and commercial settings. This tree satisfies modern consumers' desire for convenience without sacrificing the traditional appeal of a beautifully adorned Christmas centrepiece.

Specification
