Long-lasting blooms

Adaptable stem length

Year-round availability

Code: 22639

Dimensions: 6L x 8W x 100H

Description

Embrace the splendor of Japanese-inspired floristry with this exceptional white cherry blossom stem, meticulously replicated to mirror the fleeting beauty of springtime blooms. Each delicate petal unfolds with remarkable authenticity, creating an ethereal display that remains perpetually fresh and pristine. The graceful arching stem presents clusters of luminous white blossoms that appear to float weightlessly, providing depth and movement to any arrangement. This botanical marvel pairs magnificently with our white gypsophila spray for added texture, tall white delphinium stems for dramatic height variation, and laurel leaf sprays to introduce organic green elements. For trade customers seeking to curate a cohesive collection, consider complementing with our white willow spray and Japanese blossom stems to offer customers complete seasonal styling solutions. The stem's impressive length allows for statement arrangements in hospitality venues, while its adaptable nature suits both minimal modern displays and lavish installations.
