

LED Winter Garland With Eucalyptus And Lambs Ear

Winter meets modern design in this LED-enhanced garland. Frosted eucalyptus and lambs ear create depth and texture. Perfect for seasonal displays year-round.

- Built-in LED illumination
- Frost-touched foliage
- Zero upkeep required

Code: 22722

Dimensions: 0L x 0W x 153H

Description

Merging the charm of winter botanicals with modern illumination, this garland creates an enchanting display that resonates with contemporary and traditional spaces alike. The thoughtful combination of frosted eucalyptus and soft, silvery lambs ear provides a layered texture that catches both natural light and the integrated LED glow. This artificial arrangement maintains its fresh appearance year-round while requiring zero maintenance, making it an excellent investment for retailers seeking reliable seasonal merchandise. The gentle frost effect adds depth and dimension to each leaf, creating subtle light play that enhances the garland's realism. Perfect for luxury retail environments, this piece coordinates beautifully with our collection of winter accessories, particularly the matching wreath (22748) and the Darcy Antique White Vase (19502) for a cohesive display. The addition of our Frosted Eucalyptus Candle Wreath (21186) and Variegated Eucalyptus Bouquet (22191) creates an impressive coordinated collection that appeals to discerning customers seeking a refined winter aesthetic. The battery-operated LED elements provide a practical solution for creating atmospheric displays in any retail setting, while the realistic foliage construction ensures lasting quality that maintains its appeal throughout the season. This garland represents an opportunity for retailers to offer customers a professional-grade decorative piece that combines traditional winter greenery with contemporary lighting technology.
