

Lennox Black Framed Set Of 2 Side Tables

Modern dual-table set with black metal frames offers flexible arrangement possibilities. Industrial-inspired design delivers both style and function. Perfect for contemporary retail display solutions.

- Two-piece set maximises display options
- Durable metal construction
- Space-efficient nesting design

Code: 23958

Dimensions: 59L x 59W x 61H

Description

Contemporary urban design meets practical functionality in these paired side tables, embodying the refined aesthetic of the Lennox collection. The stark black frames create a dramatic silhouette that complements modern interiors while offering practical surface space for display and storage. The industrial-inspired metal framework demonstrates precise engineering, while maintaining a light and airy presence that won't overwhelm your space. As part of the wider Lennox range, these tables showcase the collection's commitment to clean lines and geometric precision. The dual-table arrangement provides adaptable positioning options, perfect for creating layered displays or practical corner arrangements. The tables harmonise particularly well with other pieces from the Lennox collection, including wall mirrors and pendant lighting accessories, allowing retailers to offer customers a cohesive design story. The minimalist profile of these tables makes them an excellent choice for contemporary spaces where understated refinement is paramount. For maximum visual impact, consider pairing with metallic decorative objects, abstract sculptures, or monochromatic art pieces from the same collection, enabling your customers to create a complete modern aesthetic.
