Authentic African Lily replica with perfect light blue petals. Creates stunning coastal displays. Pairs wonderfully with white florals and textured stems.

- Chosen for its realism
- Handcrafted
- From the popular 'Recipe Collection'

Code: 20888
Dimensions: 24L x 24W x 71H

Description

Drawing inspiration from coastal gardens, this large-headed Agapanthus delivers unmatched authenticity in delicate light blue hues. Each petal has been meticulously detailed to replicate the natural clustering and layered appearance of the African Lily, making it an ideal choice for creating lasting summer arrangements. Part of our exclusive Recipe Collection, this stem works beautifully with white Protea, Eryngium Blue Thistle, and Seeded Eucalyptus to create enchanting coastal-inspired displays. The soft blue tones blend seamlessly with white Gypsophila sprays and Orchids, while adding depth when paired with Viburnum berries and Pussy Willow branches. Perfect for both contemporary and traditional settings, this artificial bloom brings a breath of fresh air to any display, making it a must-have addition to your retail collection. Its realistic appearance and durable construction ensure long-lasting appeal for your customers seeking botanical excellence.
