- Precisely engineered angles maximise visual drama
- Substantial scale with balanced proportions
- Advanced surface treatment enhances light reflection

**Code:** 23969  
**Dimensions:** 27L x 27W x 49H

### Description

The Lorenza Large Fin Vase stands as a testament to modern artistry, with its innovative fin-like textures creating an interplay of light and shadow across its structured surface. As a distinguished piece from the Lorenza Collection, this architectural marvel demonstrates superior craftsmanship through its precisely angled planes and balanced proportions. The geometric patterns flow seamlessly from base to rim, establishing a rhythmic visual movement that makes it an arresting focal point in any setting. Its substantial presence and refined silhouette make it particularly suited for grand entranceways, expansive console tables, or as a centrepiece for spacious dining areas. The neutral palette ensures adaptability across diverse design schemes, from minimalist to luxurious interiors. For maximum visual impact, consider pairing with complementary pieces from the collection such as the Sabbia Large Hollow Vase, which shares similar contemporary design principles, or the Darcy Ople Stone Vase for textural contrast. The Regola Stone Ceramic Vase offers an excellent companion piece, creating a harmonious grouping that amplifies the modern aesthetic. Each carefully considered angle and surface treatment reflects light differently throughout the day, ensuring this piece remains visually engaging from every perspective. The substantial scale commands attention while maintaining perfect proportions, making it an investment piece that will remain relevant across evolving interior trends.
