Authentic wax drip texture

Multiple size options for varied displays

**Code:** 23045  
**Dimensions:** 9L x 9W x 23H

Description

Introducing an exceptional LED wax candle that brings contemporary flair to any retail space. The melt-effect design creates an authentic dripped-wax appearance, while the calming grey tone offers a modern take on traditional candlelight. This piece harmoniously combines technology and artistry, featuring a realistic LED flame that dances and flickers without the concerns of real flame. The substantial height makes it an ideal centerpiece, while its neutral palette allows it to complement any décor scheme. For retailers looking to create compelling displays, we recommend pairing this candle with the coordinating sizes from the Luxe Collection Melt Effect range, particularly the 3x6 and 3x4 variants. The grey series works beautifully alongside the sage colorway options, offering opportunities for eye-catching multi-height arrangements. Enhancement possibilities include clustering with decorative mirrors such as the Chico Black Wire Mirror for amplified ambient lighting effects. This product appeals to customers seeking safe, maintenance-free alternatives to traditional candles while maintaining the cherished aesthetic of authentic wax designs.
