Real wax exterior with LED core

Drip details enhance authenticity

Multiple size options for grouping

Code: 23044
Dimensions: 8L x 8W x 15H

Description

Bring understated luxury to your store with this contemporary grey LED wax candle that mimics the charming characteristics of real melting wax. The advanced LED technology creates a warm, ambient glow while maintaining safety and longevity that traditional candles cannot match. The realistic dripping effect along the sides adds depth and visual interest, making it an ideal centerpiece for modern home decor. This piece pairs beautifully with the coordinating Luxe Collection items, including the matching sage-colored variants and complementary dinner candles for a cohesive display. For the ultimate atmospheric arrangement, consider combining multiple sizes from the collection, such as the 3x4 and 5x5 models, creating an engaging visual rhythm. The natural stone-finish variants from the same line offer additional styling possibilities for customers seeking a unified yet diverse decorative statement.
