Battery-operated LED technology

Realistic wax construction

Dripping texture detail

Code: 23046
Dimensions: 13L x 13W x 13H

Description

Experience the innovative fusion of traditional aesthetics and modern technology with this melt-effect LED wax candle in a sophisticated grey finish. The realistic dripping texture creates an illusion of slowly melting wax, while the safe LED illumination provides a warm, authentic glow without the concerns of an open flame. This contemporary piece brings the perfect blend of ambiance and practicality to any setting. For a coordinated display, pair with the complementary Luxe Collection sage LED candles to create depth and visual interest, or combine with the stone-finish Natural Glow LED candles for a layered, dimensional arrangement. The collection's dinner candles can be added to complete the ensemble, offering varying heights and scales that work harmoniously together. This carefully considered design makes an ideal addition to gift shops and home décor retailers, appealing to safety-conscious consumers who appreciate atmospheric lighting with modern convenience.
