Battery-powered LED technology ensures long-lasting illumination

No-mess alternative to traditional wax candles

Safe for use in retail displays and home environments

Code: 23047

Dimensions: 15L x 15W x 20H

Description

This exceptional LED wax candle brings a distinctive blend of modern technology and classical charm to any space. The melt effect creates an authentic illusion of flickering candlelight, while the grey wax exterior provides a contemporary finish that complements both minimalist and traditional décor schemes. The gentle glow emanates through the carefully sculpted surface, casting intricate shadows that dance across walls and surfaces, making it an ideal centerpiece for evening ambiance. For maximum visual impact, we recommend pairing this piece with the Pella Table Lamp for layered lighting effects, or clustering with the Chico Black Wire Mirror to amplify the luminous display. The addition of metallic accessories like the Incia Stem Table Lamp will enhance the modern aesthetic while maintaining the sophisticated atmosphere this candle creates.
