- Realistic wax construction
- Battery-operated safety
- Multiple size options available

Code: 23119
Dimensions: 2L x 2W x 25H

Description

Bring ambiance and warmth to any space with these innovative LED wax dinner candles in a calming taupe finish. The pair offers a realistic melt effect and gentle illumination, creating an inviting atmosphere without the worry of open flames or dripping wax. These battery-operated candles provide the perfect solution for hospitality venues, retail displays, and residential settings where safety is paramount. The subtle taupe coloring enhances both modern and traditional décor schemes, while the substantial 25cm height makes them ideal centerpieces for dining tables, mantels, or window displays. For a cohesive look, consider pairing these candles with complementary pieces from the Luxe Collection, such as the Natural Glow LED tealights for layered lighting effects, or mix with the same style in sage or grey variants. The collection also includes various heights and widths of melt-effect candles, enabling creative groupings and dynamic visual displays that will appeal to safety-conscious customers seeking long-lasting, maintenance-free ambient lighting solutions.
