

Matt Black Tall Astral Vase

This matt black vase is large enough to be floor-standing and looks great styled together with an alternate size in the same finish for a staggered height display. Slim-necked, they need little foliage to complete their pared-back, contemporary aesthetic.

- Contemporary black aesthetic

Description

Introducing a standout vessel that brings minimalist grace to any interior space. The matt black finish creates a dramatic silhouette, while the slim neck design requires minimal styling effort to achieve maximum visual impact. This substantial piece works exceptionally well as a statement floor vase or as part of a curated display on elevated surfaces. For an artfully coordinated look, pair with the Matt Black Hammered Vase collection, featuring textured surfaces that complement the smooth finish of this piece. The contemporary aesthetic harmonizes beautifully with grey pampas grass stems for an organic touch, or consider adding the Garda decorative artichoke and cast lattice vases to create a cohesive black accent collection. When styling multiple pieces, the varying heights create an engaging visual rhythm that draws the eye and adds depth to any display setting.
