Nordic-inspired design aesthetic

Pairs with multiple holiday collections 2

Star accent creates ambient glow

Code: 23136

Dimensions: 8L x 8W x 26H

Description

A charming seasonal centerpiece that channels rustic splendor through its thoughtfully sculpted cedar form. This beige decorative tree merges traditional holiday aesthetics with contemporary minimalism, crowned with a luminous star that creates an enchanting focal point. The neutral palette ensures seamless integration with diverse décor schemes while maintaining visual interest through varied textures and organic silhouettes. This piece works exceptionally well when grouped with complementary seasonal accessories like the White Wash Collection's wooden snowflake decorations and sparkle reindeer ornaments, creating layered dimensional displays. The medium-sized proportions make it an ideal choice for retail merchandising, offering customers a perfectly scaled option between the smaller and larger variants in the collection. When paired with pieces from the White Wash Collection, particularly the wooden tiered tree decoration and ceramic fir trees in light green and white, it forms a cohesive winter wonderland arrangement that appeals to design-conscious consumers seeking curated holiday collections. The tree's artisanal quality and careful attention to detail make it a must-stock item for retailers catering to customers who value understated luxury in their seasonal décor.
