

Medium Green Woodland Pre-Lit 200 Led Christmas Tree

This pre-lit woodland tree showcases 200 LED lights for instant ambiance. Perfect size for most spaces with authentic-looking foliage. Easy setup meets lasting quality.

- Pre-wired LED system eliminates tangled lights and reduces setup time
- Dense branch structure supports ornaments without sagging
- Flame-retardant materials ensure safety in retail environments

Code: 24127

Dimensions: 50L x 50W x 120H

Description

Welcome the enchanting spirit of the festive season with our superbly crafted woodland Christmas tree, where deep green needles create a lush, realistic canopy that mirrors the dense foliage of forest pines. This pre-lit marvel incorporates 200 LED lights seamlessly woven throughout its branches, producing a warm, welcoming glow that dances across the needles and creates an atmosphere of winter magic. The thoughtfully designed branch structure allows for simple decorating while maintaining a natural, uncluttered appearance that appeals to modern and traditional tastes alike. Perfect for retail environments seeking to offer customers a high-quality artificial tree that combines practicality with visual appeal, this tree presents an ideal foundation for seasonal displays. Consider pairing with our range of glass baubles in forest greens and deep burgundies, woodland-themed tree ornaments featuring pinecones and berries, or our selection of rustic metal tree skirts. For added authenticity, our scented pine cone collections and battery-operated forest scene lanterns make ideal complementary merchandise. The tree's proportions make it particularly well-suited to both home and commercial settings, while its pre-lit feature reduces setup time and ensures consistent illumination throughout the display period. Retailers will appreciate the tree's appeal to customers seeking reliable, reusable holiday décor that maintains its appearance season after season.
