

Medium Snowy Fir Tree

Snow-dusted medium fir tree adds winter magic to any display. Pairs perfectly with stag ornaments and ceramic accents. Essential for festive merchandising.

- Frosty white finish
- No maintenance required
- Retail-ready presentation

Code: 23123
Dimensions: 12L x 17W x 29H

Description

A refreshing take on traditional holiday decor, this meticulously detailed fir tree embodies winter's serene splendor with its snow-dusted branches and authentic silhouette. The carefully applied frosty finish creates an enchanting interplay of light and shadow, mimicking freshly fallen snow on evergreen boughs. Perfect for retail displays that demand attention without overwhelming other merchandise, this medium-sized artificial tree offers year-round charm while maintaining its pristine appearance. For maximum visual impact, consider pairing with our coordinating silver stag ornaments in varying sizes, which echo the tree's wintry theme, or the complementary ceramic pine cone trinket dish that shares its organic inspiration. The black wooden nutcracker decorations provide a dramatic contrast that emphasizes the tree's crisp white details. For a cohesive seasonal display that will entice customers, arrange alongside our white ceramic fir trees and snowy spindle trees in wood logs, creating an artful winter woodland scene that promises strong sales potential. This artificial tree series has proven particularly successful in boutique settings and upscale gift shops, where customers appreciate its understated grace and professional presentation.
