

Natural Rustic Star On Wood Stand With Glass Votive

Star-shaped votive pairs rustic wood with gleaming glass. LED-ready design creates magical light patterns. Perfect for modern or traditional spaces.

- Glass votive cradles LED lights securely
- Solid wood stand ensures stability
- Star pattern projects layered shadows

Code: 24047
Dimensions: 8L x 20W x 48H

Description

Imbue your space with celestial charm through this artisanal star-shaped votive holder, where rustic warmth meets contemporary design. The natural wood base provides a stable foundation for the ascending star motif, creating an enchanting interplay of light and shadow when illuminated by LED candles. The careful fusion of glass and wood elements produces a dimensional display that appears to float above its understated stand, making it an ideal centerpiece for seasonal displays or year-round décor. This distinctive piece harmonises particularly well with metallic accessories such as brass or copper candle holders, weathered metal lanterns, and textured glass vessels. For maximum visual impact, consider grouping with varying heights of complementary glass hurricanes or arranging alongside woven natural fibre accessories. The glass votive component offers a sanctuary for gentle LED illumination, casting mesmerising patterns that dance across nearby surfaces. Perfect for retail environments seeking to offer customers authentic decorative elements that blend traditional craftsmanship with modern safety considerations. The versatile design appeals to both minimalist and country-style enthusiasts, making it a reliable stock choice for diverse customer bases.
