Raw wood construction shows genuine grain patterns

Scaled design offers dimensional interest

Code: 23471

Dimensions: 6L x 6W x 10H

Description

Celebrate winter's charm with this beautifully detailed wooden pine cone bauble, showcasing the organic textures and shapes found in woodland settings. The carefully carved design creates a realistic representation of a pine cone, with layered scales that cast subtle shadows and add depth to your seasonal displays. This distinctive ornament forms part of our natural collection, which emphasises raw materials and understated beauty. For a cohesive holiday arrangement, pair this piece with our complementary natural nutcracker decorations, antique white-wash variations of the pine cone bauble family, and mercury-effect bonbon candle holders. The warm wooden tones blend seamlessly with both traditional and contemporary décor schemes, while the substantial size ensures it becomes a focal point on any Christmas tree. Creating a woodland theme is effortless when combined with our frosted pine wreath adorned with authentic pine cones, offering a coordinated aesthetic that appeals to customers seeking sustainable, biophilic decorative elements. The natural finish allows the wood grain to shine through, providing a tactile quality that differentiates this piece from mass-produced alternatives. Trade customers will appreciate the year-round appeal, as this decoration transitions smoothly from winter displays to rustic year-round styling, maximising their investment potential.
