

Ordo Shaded Sand Set Of 2 Planters

Sand-toned ceramic duo with subtle shading adds understated luxury. Perfect for modern or classic spaces. Pairs with Lattice lamps and Siena water features.

- Dual-size configuration maximizes display options
- Weather-resistant ceramic construction
- Gradient coloring technique ensures uniqueness

Code: 23772

Dimensions: 75L x 75W x 57H

Description

Experience the understated refinement of our sand-toned ceramic planters, where artisanal detail meets modern minimalism. These vessels showcase a gradual shading effect that creates depth and visual interest, making them an ideal choice for both indoor and outdoor settings. The pair's harmonious proportions and neutral palette work seamlessly in contemporary and traditional spaces alike. The subtle textural elements and matte finish provide an excellent backdrop for botanical displays while maintaining their own distinct presence. For retail customers seeking coordinated collections, these planters pair beautifully with our Lattice Ceramic Table Lamp and complementary water features from the Siena collection, including the Brown Amphora Pot and Brown Water Pot series. The ceramic construction ensures durability while maintaining a light, airy aesthetic that appeals to design-conscious consumers. This set offers retailers a high-margin product that satisfies the growing demand for minimalist home accessories with architectural appeal. The planters' versatility extends beyond simple plant display, as they can function as sculptural elements in their own right, making them an essential addition to any curated home décor collection.

Please Note: The flowers and plants used in the product photography are used for illustrational purposes only and are not included with the planter.
