

Pale Green Blue Chrysanthemum

Dual-toned chrysanthemum combines sage and powder blue hues. Multi-layered petals create authentic garden appeal. Perfect for year-round displays and mixed arrangements.

All-season stem requiring no maintenance

Dual-color design enhances depth

Pairs with multiple collections

Code: 22718

Dimensions: 0L x 0W x 54H

Description

Introducing a delightful fusion of muted sage and powder blue tones, this artificial chrysanthemum stem brings serenity and modern appeal to any floral arrangement. The multi-layered petals create depth and dimension, while the gentle color gradient mimics the subtle variations found in garden-grown blooms. This botanical accent piece works beautifully when paired with complementary accessories like the Seeded Eucalyptus Spray for added texture, Lambs Ear Spray for silvery contrast, or the White Short Chrysanthemum for a monochromatic display. For those seeking a more dramatic composition, consider combining with the Deep Mustard Dahlia Stem or Purple Wildflower Small Spray to create eye-catching seasonal displays. The stem's adaptable design allows for effortless incorporation into both minimalist and abundant arrangements, making it an essential addition to any artificial flower collection. Trade customers will appreciate its enduring appeal across seasons and its ability to satisfy diverse consumer preferences.
