Textured surface creates dynamic visual effects

Neutral colour scheme suits all interiors

Multi-functional as decorative or practical piece

**Code:** 23939

**Dimensions:** 16L x 16W x 33H

### Description

This statuesque ceramic piece from the Pallida Collection showcases an innovative fleck pattern that creates an interplay of light and shadow across its surface. The tall silhouette and structured form establish a confident presence, while the thoughtfully applied textural elements provide depth and visual interest. A marriage of contemporary aesthetics and traditional craftsmanship defines this standout piece, which coordinates seamlessly with the collection's Medium Striped Vase for a curated display. The neutral palette allows for limitless styling possibilities, whether positioned as a standalone focal point or arranged alongside the Garda Grey Glazed Juniper Vase for a harmonious grouping. The aged stone finish and precise detailing reflect refined taste, making it particularly appealing to design-conscious consumers seeking statement pieces for their homes. The vase's proportions create an ideal platform for dramatic floral arrangements, while its understated beauty shines equally when displayed empty. For retailers, this piece represents an opportunity to stock an item that appeals to customers who value artistic merit and practical functionality. Consider pairing with the Smoked Sage Glass Ellipse Vase to offer customers complementary options that share the same design philosophy while expressing individual character.
