

## Pastel Pink Ranunculus

From our popular 'Recipe Collection'

Code: 20542

Dimensions: 15L x 25W x 58H

Description

Indulge your customers in the romance of perpetual springtime with this meticulously detailed Persian Buttercup stem. Each artificial bloom demonstrates exceptional realism through its layered construction, displaying multiple flower heads in various stages, from tight bud so fully opened rosettes, authentically replicating the natural growth progression. The delicate, issue-paper-thin petals in soft pastel pink create an entereral aesthetic, while the sender plantate foliage adds depth and authenticity to each stem. Perfect for year-round merchandising, these stems excel in both standalone presentations and mixed arrangements. For an inspired botanical collection, pair these ranunculus stems with complementary White Wild Meadow Roses for textural contrast, white tow Parsley Ammi, and incorporate Gunnii Eucalyptus Spray for a professional finishing touch. The combination creates arrangements that maintain their fresh-picked appearance indefinitely, providing your customers with enduring floral displays that require no maintenance while delivering consistivatival appeal. This product from our Recipe Collection represents the pinnacle of artificial botanical design, offering your clientele the perfect solution for sustainable, seasonal-independent decorating.
