Description

Item Size Lounger: 84 x 77 x 164cm - 21kg Table: 42 x 60 x 60cm - 7kg The Provence Collection Outdoor Sun Lounger set. Arriving in Spring '25, this high quality HDPE outdoor rattan furniture collection is a harmonious combination of style and durability. It's construction has been built with longevitiy in mind. With a frame built from lightweight yet sturdy powder-coated aluminium, it is protected against rust and corrosion within. Externally, the choice of chunky, 5mm round HDPE wicker weave gives you the most authentic hardwearing rattan on the market. Built to last, the Provence Garden furniture range is weatherproof, rustproof and can remain outdoors year around (although, like anything, it will last even longer if stored under cover from the elements). The furniture range comes with comfortable seat cushions in a grade 5 Olefin fabric that keeps their colours. The cushions are shower-resistant, UV-resistant and easy to remove. Because Olefins are more resistant to mildew than polyester and dry more quickly, they are an excellent choice for furniture exposed to elements. Ideally, cover them when not in extended periods of use and bring them inside during winter months for increased longevity. Cleaning this outdoor range will be easy – HDPE rattan can be washed with mild soapy water (without abrasive solvents) and a soft brush. The cushions are sponge clean only. Table tops are made of Acacia wood, a firm favourite because of its strength and stunning appearance.
